RESEARCH DEVELOPMENT WORKSHOP

AI-Powered Grant Writing

Hear from a **panel of researchers** who use artificial intelligence across the life of a grant, from the first draft of a proposal to the final evaluation report, and learn how to put these tools to work in your own sponsored research.

01
Proposal Development
Ideation, drafting, and refining competitive narratives.

02
Program Implementation
Managing funded projects with smarter workflows.

03
Program Evaluation
Collecting, analyzing, and reporting on outcomes.

Leave with concrete strategies you can apply to your next proposal right away.

OCT
22

Thursday, October 22, 2026
12:30 PM – 1:30 PM
1004 Thomas Cole Research Center

A collaboration between **AUC-GRANTED** and the **Office of Research and Sponsored Programs** (CAU)
For more information, contact **Dr. Teri Platt**, **tplatt@cau.edu**
