

A Collaborative Approach for Transforming the Research Enterprise through a Shared Support Model for Collective Impact and Synergistic Effect

National Science Foundation (NSF): Growing Research Access for Nationally Transformative Economic Development (GRANTED)

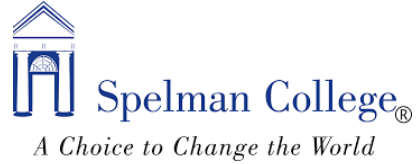

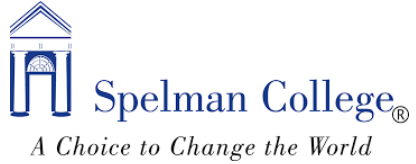

- **AUC-GRANTED: A Collaborative Approach for Transforming the Research Enterprise through a Shared Support Model for Collective Impact and Synergistic Effect**, Spelman College.

This project is a collaboration between Spelman College, Morehouse School of Medicine, Morehouse College and Clark Atlanta University, institutions that make up the Atlanta University Center. Institutions under the AUC-GRANTED award will share services designed to enhance research administration, research development and technology commercialization. The goal is to create a hub that can serve as a model for other HBCUs and emerging research institutions (ERIs), promoting equity in the national research ecosystem.

AUC-GRANTED Leadership Team

Tasha Inniss, PhD (PI)
Vice Provost for
Research

Margaret Farrow (co-PI)
Director, Research
Development &
Sponsored Programs

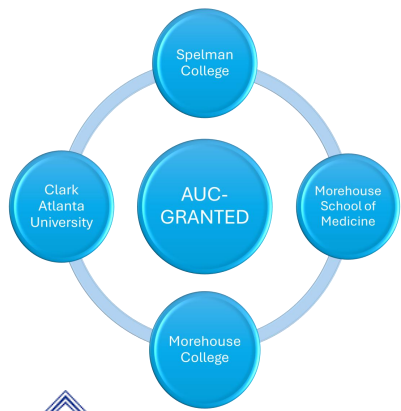

Frances Williams, PhD
(co-PI)
Vice President for
Research & Sponsored
Programs

Triscia Hendrickson, PhD
(co-PI)
Associate Provost for
Research & Student
Training

Shelia McClure, PhD (co-PI)
Senior Associate Dean
for Research
Development

AUC- GRANTED Activities and Institutional Lead Implementers			
Objective 1: Augment the knowledge management and exchange of research leadership in the AUC and at other HBCUs	Activity 1.1: AUC-wide research development & research administration capabilities as well as faculty expertise 	Activity 1.2: Metro Atlanta Research Development & Administration Collaborative (MARDAC) 	Activity 1.3: Shared resource support model presentations & documentation
Objective 2: Enhance research development capacity to support ideation and competitive proposal development	Activity 2.1: Professional development training for “community of practice” of research development staff	Activity 2.2: AUC-wide proposal pre-review process 	Activity 2.3: Cayuse Research Suite
Objective 3: Strengthen the research administration infrastructure at AUC institutions	Activity 3.1: Professional development training for “community of practice” of research administration staff 	Activity 3.2: Policy development & writing workshops 	Activity 3.3: Cayuse Research Suite
Objective 4: Create and implement an AUC-wide office for research and technology commercialization (ORTC)	Activity 4.1: Expand MSM Office of Technology Transfer into AUC-wide Office of Research and Technology Commercialization 	Activity 4.2: Research and tech commercialization curriculum
